7	IFB page 219: 28 0599, 2.6, A: Camera Type 06	Verkada model D80-30-HW in place of Avigilon 15C-H4A-3MH-270	20200309	Not approved Bidder did not provide pertinent test data, technical data, and background information on the approved Equal/substitution request as required by IFB Approved Equal Form AE-1.	20200309
8	IFB page 219: 28 0599, 2.6, A: Camera Type 07	Verkada model CD61-30E-HW in place of Avigilon 3.0C-H4A-DO1-B	20200309	Not approved Bidder did not provide pertinent test data, technical data, and background information on the approved Equal/substitution request as required by IFB Approved Equal Form AE-1.	20200309
9	IFB page 219: 28 0599, 2.6, A: Camera Type 08	Verkada model CD61-30E-HW in place of Avigilon 9W-H3-4MH-DP1	20200309	Not approved Bidder did not provide pertinent test data, technical data, and background information on the approved Equal/substitution request as required by IFB Approved Equal Form AE-1.	20200309
10	IFB page 219: 28 0599, 2.6, A: Camera Type 09	Verkada model D80-30-HW in place of Avigilon 15C-H4A-3MH-180	20200309	Not approved Bidder did not provide pertinent test data, technical data, and background information on the approved Equal/substitution request as required by IFB Approved Equal Form AE-1.	20200309
11	IFB page 221: 28 0599, 2.11, 2.12, 2.13 Control Room Equipment and Video Headend	Verkada VX51 in place of Avigilon and ViewZ solution	20200309	Not approved Bidder did not provide pertinent test data, technical data, and background information on the approved Equal/substitution request as required by IFB Approved Equal Form AE-1.	20200309
12	IFB page 222: 28 0599, 2.14, A& B Network Switches	Meraki MS-120 POE network switches in place of Comnet network switches	20200309	Not approved Bidder did not provide pertinent test data, technical data, and background information on the approved Equal/substitution request as required by IFB Approved Equal Form AE-1.	20200309

SUBSTITUTION REQUEST LOG; YBG Security Surveillance Cameras and Control Room Upgrade

ID	Reference	Substitution Request	Date	Response	Response Date
13	IFB page 223: 28 0599, 2.17, A: Firewall	Meraki MX64 in place of Sophos firewall	20200309	Not approved Bidder did not provide pertinent test data, technical data, and background information on the approved Equal/substitution request as required by IFB Approved Equal Form AE-1.	20200309
14	IFB page 224: 28 0599, 2.20, A & B: Wireless Access Points	Ubiquiti Networks airFiber 5GHz midband bridge in place of Siklu	20200309	Not approved Bidder did not provide pertinent test data, technical data, and background information on the approved Equal/substitution request as required by IFB Approved Equal Form AE-1.	20200309

RFI RESPONSE LOG; YBG Security Surveillance Cameras and Control Room Upgrade

ID	Reference	Question/Clarification	Question Date	Response	Response Date
1	IFB page 38: Special Provisions Item 23 "Contractors License Requirements"	Business Technology Partners (BTP) is planning to subcontract with McMillan Security Systems for the installation of cabling and cameras. McMillan holds a C-10 Electrical License. Does this meet your requirements unless/until BTP holds a C-7 or C-10 license of our own?	20200304	No All bidders must possess a valid Contractor Type C-10 Electrical and/or Contractor Type C-7 Low Voltage License and shall maintain said license(s) during the entire term of the Contract. Only bidders who attended the mandatory site visit and pre-bid conference are eligible to bid on the project.	20200309
2	IFB page 124: Section 1.6B related to "Working Hours"	Normally approved hours are 7am-6pm, Monday-Friday. Our design engineers and project managers start at 4am and work Saturdays. Would we be able to have access to the grounds for purposes of field coordination during these extended hours?	20200304	Yes Additional hours may be allowed by the Owner provided they are requested in writing (e.g., e-mail) by Contractor minimum of seventy-two (72)-hours prior, and the work intended complies with neighborhood noise restrictions and does not conflict with events, and Contractor receives written approval.	20200309
3	IFB page 217: 28 0599, 2.5, A: NVR	What type or RAID configuration is being specified for the server?	20200304	Minimum RAID 5 or RAID 6 if recommended Based on design-build bidder recommendation	20200309
4	IFB page 217: 28 0599, 2.5, A: NVR	Please clarify the model number of the BCD server, the specified model has been discontinued according to the manufacturer.	20200304	BCD model BCD218-ARA-216-80T Specified model has been superseded by new model BCD218-EVS-216-80T	20200309
5	IFB page 217: 28 0599, 2.5, A: NVR	Desired frame rate, resolution, and recording type for storage calculations to be performed is not specified	20200304	Unintentionally omitted, see below: 30 Days Min. Storage H.264-15 High Quality compression 15 FPS/IPS 25% Motion recording	20200309
